PROSPECTUS

PARTNERSHIP

Bringing together the City of Birmingham Symphony Orchestra and Shireland Collegiate Academy Trust to provide a first-class education that signals the importance that we place upon creativity.

Our classrooms are alive with the melodies of curiosity and the rhythms of critical thinking. We embrace the belief that finding the right note on an instrument is as significant as mastering a complex mathematical concept, discovering connections in the natural world or scoring a goal. This integrated approach imbues our education with vibrancy, equipping students with a deeper understanding of the world and fostering their capacity for creativity and innovation.

It's a school in the traditional sense but the colour we add through our partnership, the music we discover and play and the expertise we provide mean that our education is more holistic and more vibrant than any other.

If I were not a physicist, I would probably be a musician. I often think in music. I live my daydreams in music. I see my life in terms of music.

ALBERT EINSTEIN

THE STUDENT

Just as a well-conducted symphony requires precision and discipline, we believe that academic achievements are likewise built upon a foundation of diligence and perseverance. We strive to strike a harmonious balance between the artistic and academic spheres, recognising that each fosters invaluable skills and qualities.

Through music, our students develop discipline, teamwork and the ability to express themselves creatively. In academics, they cultivate critical thinking, problem-solving and a thirst for knowledge. And just as a melodic refrain enhances a musical composition, we prioritise the well-being of our students, conducting the symphony of their emotional intelligence to create a supportive and thriving environment.

We're not prescriptive in our approach either. A passion for music or a flair for academics is enough. Once the flame is lit, we'll ensure that it continues to burn throughout their life.

Music is a universal language that empowers young minds, transcending borders and bridging divides, reminding us of our shared humanity.

THE EXPERTS

With their virtuosity and passion, our exceptional team of experts serve as the guiding stars, illuminating the path to musical and academic mastery. They weave intricate melodies of knowledge, technique, and artistic expression, harmonising the potential within each young person.

We orchestrate an environment where creativity flourishes, nurturing the seeds of talent and igniting a lifelong love affair with learning. Through their guidance, young minds explore a chorus of genres, honing their skills, and refining their abilities.

The impact of our devoted maestros extends beyond the realms of technique and theory. They cultivate confidence, self-expression, and resilience, transforming students into maestros of their own destiny. With their expert guidance, our students embrace the crescendos of challenge, conquer the staccatos of self-doubt, and craft their own symphony of success.

We rise by lifting others. The impact we have on someone's life can create a lasting legacy.

MICHELLE OBAMA

At Shireland CBSO Academy, we offer an unparalleled blend of musical excellence and academic rigour, nurturing well-rounded individuals ready to make their mark in the world.
